TENNESSEE MATHEMATICS TEACHERS ASSOCIATION

## TMTA EXECUTIVE COMMITTEE

**President, Holly Anthony**  
Tennessee Tech University

**Past President, Eddie Keel**  
Battelle For Kids

**President-Elect, Desireé McCullough**  
University of Tennessee at Martin

**Secretary, Steve Gadbois**  
Memphis University School

**Treasurer, Stephanie Kolitsch**  
University of Tennessee at Martin

**Vice-President for Elementary, Lynda Gunter**  
Kenrose Elementary

**Vice-President for Middle Schools, Lois Coles**  
Brentwood Middle School

**Vice-President for Secondary Schools, Alice Carson**  
Karns High School

**Vice-President for Two-Year Colleges, David Atkins**  
Walters State Community College

**Vice-President for Colleges/University, Carroll Wells**  
Lipscomb University

**Examinations Director, Thomas Bass**  
Carson-Newman College

**Contest Coordinator, Jackie Vogel**  
Austin Peay State University

**Membership Coordinator, Pat Tyree**  
Brentwood Academy

**Statistician, Barbara Ward**  
Belmont University

**Contest Awards Chair, Desireé McCullough**  
University of Tennessee at Martin

**TMTA Bulletin Editor, Kathy Eskew**  
University of Tennessee at Martin

**NCTM Representative, Ann Indingaro**  
Retired

**Parliamentarian, Ann Indingaro**  
Retired

## TMTA AFFILIATES

TENNESSEE MATHEMATICS TEACHERS ASSOCIATION

**6:00-8:30 P.M.**  
**Dining Hall, Campus Center**  
Math Contest Winner Award Banquet  
Keynote Speaker: S. Brent Morris

## **KEYNOTE SPEAKER: S. Brent Morris**

### **“Mathematics of the Folger Cipher”**

S. Brent Morris has a Ph.D. and M.A. in mathematics from Duke University and an M.S. in Computer Science from Johns Hopkins University. He is believed to have the only doctorate in the world in card shuffling; his dissertation is entitled *Permutations by Cutting and Shuffling: A Generalization to  $Q$  Dimensions*. He retired after 25 years as a mathematician with the federal government and has taught at Duke, Johns Hopkins, and George Washington Universities. He is now managing editor of the *Scottish Rite Journal* of the Scottish Rite Masons in Washington, D.C. He is the author of *Magic Tricks, Card Shuffling, and Dynamic Computer Memories* (MAA, 1998), two U.S. patents, nine technical articles, and nine books on Freemasonry.

He became interested in the perfect shuffle in high school and has pursued its mathematics for over 35 years. He worked his way through college and graduate school as a magician. He was an ACM Distinguished Lecturer, an MAA Visiting Lecturer, a SIAM Visiting Lecturer, and he has been invited to lecture at the Smithsonian Institution, the Board on Mathematical Sciences of the National Research Council, NASA Goddard Space Flight Center, AT&T Bell Labs, NEC Research Institute, the National War College, the Joint Mathematics Meetings of the MAA/AMS, and over 100 colleges.

## Our Heritage

The People to People movement dates back more than half a century to its founding by President Dwight D. Eisenhower in 1956. Eisenhower was acting on his firm belief that direct interaction between ordinary citizens around the world can promote cultural understanding and world peace. That proud legacy of hope lives on in People to People Ambassador Programs on seven continents.

## A Legacy of White House Support

I have long believed, as have many before me, that peaceful relations between nations require mutual respect between individuals," said President Dwight D. Eisenhower. He put the ideal behind these words into practice when he launched the People to People initiative in 1956. Since that time, U.S. presidents have served as the honorary chairman of People to People International.

As President John F. Kennedy so eloquently said, "The nature of People to People activities is as varied as the individuals involved. The housewife whose recipe contains the yeast of kindness, the soldier whose arms embrace homeless waifs, the doctor who heals with humility, all assert a single theme—the power of people, acting as individuals, to respond imaginatively to the world's need for peace."

People to People Ambassador Programs continues to partner with People to People International to provide imaginative responses to the world's need for peace.

### **People to People Announces Mathematics Education Delegation to South Africa**

Dr. Johnny Lott, Former President, National Council of Teachers of Mathematics (NCTM), invites you on a unique overseas cultural and professional exchange opportunity.

People to People Citizen Ambassador Programs is coordinating a delegation of mathematics education professionals who will travel to South Africa from September 30-October 9, 2013.

This delegation will seek to increase collaboration with South African professionals and organizations on topics of mutual interest in the mathematics education arena. This will be combined with cultural activities highlighting the sights and sounds of the country. Delegates will enjoy insider views of the education systems in South Africa and experience the culture in ways that most travelers never do, from exploring SOWETO and the Cape of Good Hope to observing professional counterparts in their element.

Program details and an application form are available by calling 877.787.2000 or emailing [citizens@peopletopeople.com](mailto:citizens@peopletopeople.com). A direct link to the planned itinerary can be found online at: [www.peopletopeople.com/johnnylott](http://www.peopletopeople.com/johnnylott).

Please consider joining this exciting exchange!

## RULES FOR KENKEN®

Fill the grid with digits so as not to repeat a digit in any row or column, and so the digits within each heavily outlined box or boxes (called a cage) will produce the target number shown in that cage by using the operation (addition, subtraction, multiplication, or division) shown by the symbol after the numeral.

For single box cages, simply enter the number that is shown in the corner.

So, for example, the notation 6+ means that the numerals in the cage should add up to 6, and the notation 48x means that by multiplying the numbers in the cage you will get 48. A 4x4 grid will use the digits 1-4. A 5x5 grid will use 1-5. A 6x6 grid will use 1-6, and so on.
